The Motion was approved 5 to 0, with Commissioners Omictin, Malec, Patel, Chadwick and Bandy in support. (Commissioner Comer was not present at this point.) The resolution reads as follows:

WHEREAS, on May 15th, 2024, the National Park Service (NPS) will close the southern portion of San Martin Memorial Park, between Virginia Avenue NW, 20th, and 21st Streets NW, an area containing an encampment of unhoused people;

WHEREAS, also on May 15th, 2024, the Deputy Mayor’s Office of Health and Human Services (DMHHS) will close several parks and grassy areas in ANC 2A containing encampments, including the DC-managed San Martin Memorial Park, parts of Juarez Circle, and grassy areas between west and east-bound E St. NW between 20th and 21st St. NW, affecting around up to 40 unhoused people;

WHEREAS, while NPS noticed their closure of the southern portion of San Martin Memorial Park at least four months in advance, DMHHS did not publicly notice their closure of DC land until April 4th and 5th;

WHEREAS, DMHHS described the encampment protocol engagements on DC land on May 15th, 2024, as “enforcement that this public space must remain clear at all times” indicating their intent to close or limit access indefinitely to these parks;

WHEREAS, in the last several years, many people who have lived in the encampments slated for closure have been able to access housing, with many using their vouchers in ANC 2A and working in nearby businesses, without having to close the encampments in question;

WHEREAS, among unhoused people living in encampments, encampment clearings and closures cause increased distrust in government programs and increased reticence to use government resources; the loss of critical documents and important personal belongings;

the disruption of social ties between caseworkers, housed neighbors and fellow unhoused people; increased incidence of behavioral and mental health conditions brought about by trauma; and physical displacement to increasingly isolated places where service provision is more difficult<sup>1,2</sup>;

# Advisory Neighborhood Commission 2A

*“Serving the Foggy Bottom and West End communities of Washington, D.C.”*

WHEREAS, many people currently living in the encampments slated for closure are waiting on progress in their housing case, and have built relationships of trust with case managers that are now threatened by the prospect of being displaced to another part of the city;

WHEREAS, as of March 15th, 2024, just 35% of people who have been assigned a housing voucher through the permanent supportive housing (PSH) and targeted affordable housing (TAH) programs have a case manager (584 out of 1,663), meaning they cannot access housing despite having a voucher in hand<sup>3</sup>;

WHEREAS, as of March 15th, 2024, despite 5,323 PSH and TAH vouchers being funded in the last three fiscal years, only 2,467 (46%)<sup>4</sup> are currently being used by tenants, meaning that the majority of vouchers remain unused despite 3,750 unhoused people living in DC<sup>5</sup>;

WHEREAS, there is a well-documented shortage of case managers in DC, which hinders service providers’ ability to house people swiftly<sup>6</sup>;

WHEREAS, between August and November 2021, DMHHS ran the CARE encampment pilot program at the encampment at 21st and E Streets NW<sup>7</sup>, which successfully housed many of the encampment’s residents without closing the encampment;

WHEREAS, in October 2021, ANC 2A passed a resolution urging DMHHS to continue providing the encampment pilot program’s vouchers while postponing all clearings at the encampment in 2A<sup>8</sup>;

WHEREAS, DMHHS and DHS have developed no unique plans to house residents at the encampments they will clear on May 15th, 2024, meaning that many encampment residents will continue to camp outside in other parts of Foggy Bottom, Ward 2, and DC;

WHEREAS, in February 2023, NPS and DMHHS closed down the encampment at McPherson Square two months before they had originally planned to do so,<sup>9</sup> over the objection of five Councilmembers<sup>10</sup> and many direct service providers who were tasked with outreach in the park;

WHEREAS, just 15 of the around 70 residents of McPherson Square’s encampment had been approved for housing assistance by five days before the encampment closure, given the accelerated and aggressive timeline of the closure<sup>11</sup>;

WHEREAS, at least 10 people who were previously living in McPherson Square now live in the encampments slated for closure, doubling the trauma of displacement and further decreasing people’s trust in government services;

# Advisory Neighborhood Commission 2A

*“Serving the Foggy Bottom and West End communities of Washington, D.C.”*

WHEREAS, wherever encampment closures occur in the city, they always result in some degree displacement of homelessness, and do not contribute to ending homelessness and making it brief, rare, and non-recurring.<sup>12</sup>

BE IT RESOLVED that ANC 2A urges DMHHS, DHS, and NPS to call off the closure of the encampments in ANC 2A on May 15, 2024, downgrading encampment protocol engagements on that day to clean-ups only, until every person in these encampments can move into sustainable housing.

BE IT FURTHER RESOLVED that ANC 2A requests the return of the temporary housing vouchers available during the CARES pilot program, which successfully and sustainably housed nearly all of the residents of the encampment in 2022.

BE IT FURTHER RESOLVED that ANC 2A urges DHS to clear away barriers preventing people from using vouchers to move into housing and increase funding levels for nonprofits engaged in service delivery, as ensuring that housing is readily accessible is the only effective way to deter encampments.

Report from the Aston CAT,

Chris Labas and Courtney Cooperman reported that the Aston is expected to open in Mid-August. 50 people would move in first, and then eight weeks later they would re-evaluate whether they can bring in another 50 residents. Friendship Place was selected as the primary provider for the Aston and will start advertising for other help in May. Friendship Place has run a similar bridge housing facility in Anacostia. They are interested in developing a “Good Neighbor” agreement, based on one used in Ward 5 at the Sterling and are seeking community input for this directly to the CAT. A web site for the Aston has been created with a schedule of future CAT meetings.

Matters Before the Public Space Committee.

Christopher Dyer of DPR, Peter Nohrden, of DPR and the Project Manager indicated they wanted the ANC’s support to get a permit from Ddot for the playground and dog park at 26 th and I Streets NW. The permit is needed because Ddot owns the land. They provided an update on the proposal which has a new general contractor and landscape architect. The Ddot proceeding is May 23. The Commission moved by unanimous consent to table a Motion in support until Commissioner Comer returns.

Matters Before the Historic Preservation Review Board.

Will Teas presented a proposal to build a new residence at 2510 I Street NW and other resident comments on this proposal The Commission did not take action on this matter.

Matters Before the Board of Zoning Adjustment BZA 21113.

# Advisory Neighborhood Commission 2A

The ANC was presented with a request to approve an existing penthouse at 1750 H Street which had not been previously permitted, but which requires a permit to make interior changes to some restrooms. The Secret Service has confirmed that the permit would not cause a security problem despite being close to the White House. The ANC adopted a resolution in support of this by unanimous consent.

Matters Before the Alcoholic Beverage and Cannabis Administration.

The ANC was briefed on several renewal license applications, but as is customary, took no action. The ANC passed a resolution withdrawing its objection to a filing by For Five Coffee Roasters for a liquor license with Commissioners Omictin, Malec, Comer, Chadwick and Bandy supporting and Commissioner Patel opposed.

Administrative Matters.

Chair Malec explained that he will leave the Commission as of May 1 because he will be moving out of his SMD. The Commission elected Commissioner Patel as new Chair to become effective at the end of the adjournment of this meeting with Commissioner Comer abstaining. The Commission then elected Commissioner Chadwick as Vice-Chair by unanimous consent.

The Commission elected 2 new members to the ANC’s Bylaws Revision Special Committee: Florence Harmon and Marina Streznewski.

Matters Before the DC Council

1. The Commission approved CR-24-021, a resolution regarding teacher funding at the School Without Walls. (10 min.) Commissioners Malec, Patel, Omictin, Chadwick, Bandy supporting. Commissioner Comer abstaining. The resolution reads as follows:

WHEREAS, School Without Walls High School (SWWHS) is a highly-rated public high school within ANC 2A, serving students from around the District;

WHEREAS, given SWWHS’ location, we have advocated alongside its staff and students on many occasions, most recently passing a resolution in 2020 to advocate for the reinstatement of Principal Trogisch and the following of reasonable COVID safety standards;

WHEREAS, Mayor Bowser’s FY 2025 budget for SWWHS is \$235,000 less than the prior year, meaning that two teachers will have to be fired (most likely the heads of the theatre and Chinese departments, eliminating those departments entirely);

WHEREAS, students at SWWHS have been fiercely fighting these budget cuts, circulating a petition with 810 signatures so far and testifying in the dozens at the Office of the School Superintendent of Education hearing on April 4th, 2024;

# Advisory Neighborhood Commission 2A

*“Serving the Foggy Bottom and West End communities of Washington, D.C.”*

WHEREAS, petition comments and testimony from the April 4th hearing includes glowing reviews of the teachers whose jobs are on the line, such as:

- “The arts are IMMENSELY important and I had never even considered a profession in them without Ms. Z's guidance.”
- “As a Walls student, I am lucky to have the opportunity to take Mandarin Chinese. As Mandarin is one of the most spoken languages worldwide, and the most spoken language in China, it is crucial that US students continue to learn it. If the cuts take place, there is a chance that the entire Chinese program will be cut...DCPS schools being forced to cut multiple teachers and entire departments will do nothing but accelerate the rapid decline of education across the city and the mentality of the teachers who remain.”
- “The current plan is that Walls’ administration will have to let go of a language teacher, impacting many students no matter which language is affected...I was really eager to continue my language learning career, and now I feel uncertain about that.”
- “I see the privilege I have by going to the school without walls but what would I be without the connection I made with my drama teacher? She has supported me through many hardships and always had a shoulder to lean on or a listening ear when I needed it.”
- “I am unsure how to react to this situation because I had begun my high school journey here and I want to explore a little more for what this school may have to offer. I cannot do that, obviously, if serious cuts will have to take place. Here is my inquiry. Is there a solution to keep the school’s departments while still staying track of the budget? In other words, can there be a way to not make too many cuts?”

WHEREAS, wide-ranging budget cuts to public education in DC may result in the laying off of as many as 200 full-time equivalent teachers and essential educational staff;

BE IT RESOLVED that ANC 2A urges the DC Council and Chairman Mendelson to fill the \$235,000 budget gap for SWWHS to retain two teachers, in support of the demands of students of SWWHS.

BE IT FURTHER RESOLVED that ANC 2A urges the DC Council and Chairman Mendelson to stop all cuts to public schools across the city in this budget and fully fund asks for basic maintenance, teacher and staff retention, and educational programming.

WHEREAS, On page 12 of the DGS building assessment states, “The roof has a lot of patching and water ponding’s. No leak reported but the deterioration is visible and needs immediate replacement.”

WHEREAS, The DGS inspector assessed the roof with a high urgency but then, further down on the same page, they scored it as a priority 3 item to be addressed within 5 years, and put an action date of May 2027.
