6. Matters Before the Office of Zoning Adjustment

- a. Commissioner Comer introduced Lawrence Ferris, representative of The George, an apartment building at 2601 Virginia Ave. NW. Mr. Ferris explained that his clients have been unable to lease retail space for about 5 years and now seek to move their building amenities to most of this space and to create 8 new units in the space now occupied by the amenities. The team has agreed to preserve some of the retail space (about 500 to 600 square feet) for a café market serving the public. They are applying to OZA to make these changes.
- b. Commissioner Comer expressed that the community has a great interest in a larger café/market but would oppose the changes as proposed because the area is a food desert in terms of food and services. Chair Patel reemphasized these issues and asked many questions about their efforts to lease the space. Mr. Ferris responded by indicating they tried to lease the space and even lowered their rent to below market levels. There was much discussion about needs, retail demand and coordination with the community. Commissioner Comer proposed a resolution that would delay the hearing before the OZA to try to achieve a resolution satisfactory to all. The West End Foggy Bottom Main Street, the Foggy Bottom Association and many community members all commented opposing the proposed reduction of retail space. The WECA offered to help in discussions to identify solutions. The resolution was approved by a vote of 3-0-1. Commissioners DiCapo, Patel and Comer voted yes. Commissioner Youngstone abstained.
