## ILLUSTRATIVE CONCEPT PERIMETER FENCE

- Granite post type A
- Granite post type B
- ▲ Granite post type C

- Anti-climb fence - black, steel rails (Modified MOFA standard)
- Anti-climb fence on 18" knee wall (granite veneer)

SITE SECURITY FENCE

MOFA STANDARD FENCE

DETAIL - POST TYPE A

Continuous reinforced footing per standard

MODIFIED MOFA STANDARD FENCE

Column pier footing per structural engineer

DETAIL - POST TYPE B

10 FT MODIFIED PALISADE FENCE

POSTS SPACING - 10 FT O.C.

ANTI-CLIMB

RENDERING

GRANITE VENEER POSTS WITH BLACK, POWDER-COATED, SOLID STEEL RAILS

ILLUSTRATIVE CONCEPT  
TREES & VEGETATION

Existing Heritage and Special trees along New Hampshire Ave.

Existing Heritage Tree

Existing Special Tree

New tree, typ.

Existing trees in poor condition;  
anticipate permit for removal

1. The Embassy is surrounded by DDOT Urban Forestry designated Heritage and Special Trees. These trees will require protection during construction, and an arborist should be retained to provide a full assessment of the trees for preservation and protection, based on the work proposed, and to prepare a tree protection plan in anticipation of future construction.
2. Protect and preserve existing trees to support the local ecosystem, mitigate heat island effects, and absorb stormwater, in addition to meeting DDOT Urban Forestry and Green Area Ratio requirements.
3. Remove invasive vines and plant species, such as English ivy, and refresh with a planting palette of native shrubs and groundcovers that provide ecosystem services.
4. Adopt a planting strategy to establish a cohesive, secure design integrated throughout the site. Installation of native or adapted plants will reduce the watering needs for any new plantings after establishment.

# PLANTING PLAN

## VEGETATIVE STRATEGY

-  Low shrub/groundcover mix
-  Low evergreen groundcover
-  Evergreen shrub massing (screening)
-  Annual or perennial color

-  Existing shade tree (R.O.W.)
-  Existing shade tree (on site)
-  Proposed shade tree (on site)
-  Existing Heritage Tree
-  Existing Special Tree
